

Video: W15-P1: Create company (filter) menu using scss

fab31de A-iong Sun Jun 2 16:51:26 2024 +0800 W15-P1: Create company (filter) menu using scss

Video: W15-P2: Implement company filter functions, test for each company

```
5 let products_34 = [];
6
7 > const getProductsSupabase_34 = async () => { ...
15 };
16
17 > const productContainer = document.querySelector(".products-container");
18 > const companyBtns = document.querySelectorAll(".company-btn");
19
20 > console.log("products_34", products_34);
21
22 > const displayProducts = (products) => { ...
43 };
44
45 > companyBtns.forEach(btn => {
46   btn.addEventListener("click", async (e) => {
47     const companyName = e.currentTarget.dataset.id;
48     console.log("companyName", companyName);
49     if (companyName === "all") {
50       products_34 = await getProductsSupabase_34();
51     } else {
52       let { data: company, error } = await supabase
53         .from("company_34")
54         .select("id")
55         .eq("name", companyName);
56       console.log("company id", company[0].id);
57       let { data, error } = await supabase
58         .from("products_34")
59         .select("*")
60         .eq("companyId", company[0].id);
61       console.log(`${companyName} products`, data);
62       displayProducts(products_34);
63     }
64   });
65 }
66
67 > document.addEventListener("DOMContentLoaded", async () => {
68   products_34 = await getProductsSupabase_34();
69   displayProducts(products_34);
70 });
```
